Identical letters dated 22 February 2003 from the Permanent Representative of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council

On instructions from my Government, I have the honour to transmit to you herewith the daily report on the activities carried out by the inspection teams of the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) and the International Atomic Energy Agency (IAEA) in Iraq on 21 February 2003 (see annex).

I should be grateful if you would have this letter and its annex circulated as a document of the Security Council.

(*Signed*) Mohammed A. **Aldouri**
Permanent Representative

03-25891 (E) 060303 070303

Annex to the identical letters dated 22 February 2003 from the Permanent Representative of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council

Activities of the UNMOVIC and IAEA inspection teams in Iraq

Inspection activities on 21 February 2003

I. UNMOVIC inspection team (missiles)

The team, comprised of two inspectors, left the Canal Hotel at 9.30 a.m. and arrived at the Musayyib electrical power station, an affiliate of the Electricity Commission. Upon arrival at the site, the team inspected the fuel tanks used to power the station, observed the openings through which the tanks were brought into the station and the associated emergency exits, took note of the thickness of the reinforced concrete used to construct the openings and measured the tanks. The team completed its assignment, which lasted two hours, then returned to the hotel.

II. UNMOVIC inspection team (biological)

A helicopter carrying four inspectors took off from the Rashid airfield at 10 a.m. on an aerial reconnaissance flight over two projects, the privately owned Ishaqi dairy, located at Dajil, and the pesticides factory belonging to the Tariq State Company, an affiliate of the Military Industrialization Corporation (MIC), located some 100 kilometres north of Baghdad. During the reconnaissance operation, the team used video and still cameras. It completed its assignment, which lasted 90 minutes, then returned to the Rashid airfield.

III. Meetings

The International Atomic Energy Agency requested to meet with two Iraqi scientists in a hotel in Baghdad. The National Monitoring Directorate notified the two scientists of the times of their respective meetings and encouraged them to attend. The meetings took place and both scientists used tape recorders to record the proceedings. The first meeting lasted two and a half hours and the second 50 minutes.
